

Action Taken Report on Curriculum

2016-17

H&HB Kotak Science College has 10 teachers are members of Board of Science, Faculty of Science and Senate. They take feedback from teachers and students. When there is a meeting with parents, alumni and industries they take feedback on curriculum. They are active to put their suggestions in the bodies of Saurashtra University at the meeting. There is significant contribution in design and development or its reformation of curriculum. There are two members Dr. Ranjana Agarwal and Shri U.J. Vyas are members of Faculty of Science. Faculty of Science give importance to the suggestions of them.

For example, We had taken feedback from teachers of Mathematics in 2016-17. We had received a suggestion about Paper no.601 B, Introduction to SAGE. It was to replace SAGE Software by other mathematical software like GeoGebra. GeoGebra is open source software and more useful to the students of Mathematics. It was put in the Board of Studies of Mathematics by our teacher NT Chotaliya at the time of meeting. The board accepted it and SAGE is replaced by GeoGebra with effect from June 2017. Dr. N. K Ajudia prepares a journal of practical of GeoGebra on behalf of the board.
