Code of Ethics to Check Malpractices and Plagiarism in Research

We know that in Research publications, the Research Ethics must be observed. Sometimes it is observed that researchers claim others work as their own, which will degrade the reputation of the institution. To prevent plagiarism in Research the following things are done.

The Faculties claiming their research publications are told to go through the online softwares to check plagiarism.

The Project investigator (guides) and Scholars are asked to use the softwares available in open source software. from guide and co-authors to get their project work approved for publication / thesis presentation.
